Education

❑ Sigma Institute of Engineering

Bachelor Of Engineering – Computer Engineering (**8.4 cgpa**).

Courses – IBM Academics, Code Unnati edunet Foundation (Advanced course , Value added course) , IBM cloud , Acme grade.

Skills Summary

- **Languages:** Python, Html, CSS, JavaScript, SQL
- **Tools:** PyCharm, Google Collaboratory, Jupyter Notebook, PowerBI, MySQL, MsSQL
- **Soft Skills:** Teamwork, Time Management, Decision Making, Critical Thinking.

Work Experience

❑ Intern @Crompton (Jan 2025-April 2025)

Data Analyst Intern - Working under the ongoing data analytics projects at Crompton.

❑ Intern @mindsclik (July 2024-September 2024)

Software Developer Intern - Created interactive dashboards made on power bi and worked on python libraries in jupyter notebook for data analytics

❑ Intern @unifiedMentor (June 2024)

Data Analysis Intern Created a Industry level project as well as dashboard using python libraries and PowerBi.

Projects

❑ System-Analytics Dashboard

A creative and interactive dashboard made in power bi which shows the insights of system's usage stats of my device.

GitHub: <https://github.com/Rutvik2803/System-Analytics>

❑ Amazon sales analysis

Performed Analysis on Amazon sales data using python libraries like Pandas, NumPy, matplotlib, seaborn.

GitHub: <https://github.com/Rutvik2803/AmazonSales-Analysis>

❑ Fake news Prediction

Created a supervised machine learning model which takes the news as input and results in binary (0,1) as output in which 0 represents fake news and 1 represents real news.

GitHub: <https://github.com/Rutvik2803/Fake-news-prediction>

❑ Docu-Port website (*DE GTU Group Project*)

Created a website which helps us to store the important documents on our online website.

(**Note:** Only frontend based.)

GitHub: <https://github.com/Rutvik2803/DocuPort>

Achievements/Participation

❑ KIMO (Learn to Earn)

Got 8th rank in university in the KIMO competition.

❑ Code Unnati Innovation Marathon

Participated in the National Code unnati innovation marathon and built a IOT based project on Smart Waste Management System.

❑ Hackathon

Actively participated in a Hackathon arranged by ITM SLS university and made a supervised learning project on Fake News Detection System.

Volunteering Experience

❑ Student Coordinator

Worked as a student coordinator for Sigma University and conducted sessions regarding multiple Linguistic Activities.

❑ Event Management

Managed an annual fest event for Sigma University along with a team.
